## Safety Data Sheet Library

UK Professional Products — Rodenticides & Insecticides

Document Version: 1.0 | Compiled: 23 March 2026 | For Professional Use Only

### IMPORTANT NOTICE

This document is a reference summary only. It does not replace official Safety Data Sheets (SDS) issued by the product manufacturer. Always obtain and retain the current SDS from the manufacturer before use. SDS documents must be made available to all operatives under COSHH Regulations 2002.

Regulatory contacts: HSE Pesticides — [hse.gov.uk/pesticides](https://www.hse.gov.uk/pesticides) | NPIS: 0344 892 0111 | EA: 03708 506 506

All products listed are for professional use only unless stated. Use in accordance with label instructions, HSE approval conditions, and relevant legislation including COSHH 2002, Control of Pesticides Regulations 1986 (as amended), and the Biocidal Products Regulation (UK BPR).

### Emergency & Regulatory Contacts

Organisation	Purpose	Contact
National Poisons Information Service (NPIS)	Poisoning emergencies — clinical advice to NHS professionals	0344 892 0111
NHS 111	Non-emergency medical advice (public)	111
Emergency Services	Life-threatening emergencies	999
HSE Pesticides	Regulatory queries, incident reporting	<a href="https://www.hse.gov.uk/pesticides">hse.gov.uk/pesticides</a>
Environment Agency	Environmental incidents / wildlife mortality	0800 807 060
CRRU UK	Rodenticide stewardship / code of practice	<a href="https://www.thinkwildlife.org">thinkwildlife.org</a>

Products used for the control of rats (*Rattus norvegicus*, *Rattus rattus*) and mice (*Mus domesticus*). All anticoagulant rodenticides must be used in accordance with the CRRU UK Code of Best Practice and placed in tamper-resistant bait boxes.

## 1.1 — Product Overview

Product	Active Ingredient	Concentration	Form	Use Restriction
Contrac Blox	Bromadiolone	0.005%	Wax block bait	Professional use only
Contrac Super Blox	Bromadiolone	0.005%	Wax block bait	Professional use only
Ratimor Fresh Pasta Bait	Bromadiolone	0.005%	Pasta sachet	Professional use only
Ratimor Blocks	Bromadiolone	0.005%	Wax block	Professional use only
Bromag	Bromadiolone	0.005%	Whole wheat grain bait	Professional use only
Sorex Gel	Difenacoum	0.005%	Ready-to-use gel	Professional use only
Rodilon	Difethialone	0.0025%	Whole wheat grain bait	Professional use only — indoor use only
Talon (Brodifacoum bait)	Brodifacoum	0.005%	Wax block / grain	Professional use only — indoor use only
Phostoxin	Aluminium Phosphide	56%	Tablet / pellet fumigant	Restricted — trained operators only. Toxic gas on contact with moisture.

## 1.2 — Individual Product Reference Sheets

### 1. Contrac Blox

<b>Product Name</b>	Contrac Blox
<b>Active Ingredient(s)</b>	Bromadiolone
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Wax block bait
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed. Very toxic to aquatic life.
<b>PPE Required</b>	Nitrile gloves, face shield if cutting blocks
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NHS 111 / NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Bell Laboratories current SDS
<b>Regulatory Approval</b>	HSE approved — UK biocidal product

## 2. Contrac Super Blox

<b>Product Name</b>	Contrac Super Blox
<b>Active Ingredient(s)</b>	Bromadiolone
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Wax block bait
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed. Very toxic to aquatic life.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Bell Laboratories current SDS
<b>Regulatory Approval</b>	HSE approved — UK biocidal product

## 3. Ratimor Fresh Pasta Bait

<b>Product Name</b>	Ratimor Fresh Pasta Bait
<b>Active Ingredient(s)</b>	Bromadiolone
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Pasta sachet
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed. Harmful to wildlife.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Unichem current SDS
<b>Regulatory Approval</b>	HSE approved — UK biocidal product

#### 4. Ratimor Blocks

<b>Product Name</b>	Ratimor Blocks
<b>Active Ingredient(s)</b>	Bromadiolone
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Wax block
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Unichem current SDS
<b>Regulatory Approval</b>	HSE approved

#### 5. Bromag

<b>Product Name</b>	Bromag
<b>Active Ingredient(s)</b>	Bromadiolone
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Whole wheat grain bait
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed. Very toxic to aquatic life.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check manufacturer current SDS
<b>Regulatory Approval</b>	HSE approved

## 6. Sorexa Gel

<b>Product Name</b>	Sorexa Gel
<b>Active Ingredient(s)</b>	Difenacoum
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Ready-to-use gel
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed. Reproductive toxicant.
<b>PPE Required</b>	Nitrile gloves, eye protection
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Sorex current SDS
<b>Regulatory Approval</b>	HSE approved

## 7. Rodilon

<b>Product Name</b>	Rodilon
<b>Active Ingredient(s)</b>	Difethialone
<b>Concentration</b>	0.0025%
<b>Formulation Type</b>	Whole wheat grain bait
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only — indoor use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Toxic if swallowed. Very toxic to aquatic life. Indoor use only.
<b>PPE Required</b>	Nitrile gloves, eye protection
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check BASF current SDS
<b>Regulatory Approval</b>	HSE approved — indoor use restriction applies

**8. Talon (Brodifacoum bait)**

<b>Product Name</b>	Talon (Brodifacoum bait)
<b>Active Ingredient(s)</b>	Brodifacoum
<b>Concentration</b>	0.005%
<b>Formulation Type</b>	Wax block / grain
<b>Target Pest(s)</b>	Rats, Mice
<b>Use Restriction</b>	Professional use only — indoor use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Fatal if swallowed. Very toxic to aquatic life. Indoor use only.
<b>PPE Required</b>	Nitrile gloves, face shield
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check manufacturer current SDS
<b>Regulatory Approval</b>	HSE approved — indoor/sewer use only

**9. Phostoxin**

<b>Product Name</b>	Phostoxin
<b>Active Ingredient(s)</b>	Aluminium Phosphide
<b>Concentration</b>	56%
<b>Formulation Type</b>	Tablet / pellet fumigant
<b>Target Pest(s)</b>	Burrowing rodents, grain pests
<b>Use Restriction</b>	Restricted — trained operators only. Toxic gas on contact with moisture.
<b>UN Number</b>	UN 1397
<b>Hazard Classification</b>	Fatal if inhaled. Releases phosphine gas. Reacts violently with water.
<b>PPE Required</b>	Full chemical suit, SCBA breathing apparatus, gas monitor
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	Emergency services 999 / NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Detia-Degesch current SDS
<b>Regulatory Approval</b>	HSE approved — requires RSPH/BASIS certification

## Emergency & Regulatory Contacts

Organisation	Purpose	Contact
National Poisons Information Service (NPIS)	Poisoning emergencies — clinical advice to NHS professionals	0344 892 0111

Products used for the control of crawling and flying insect pests including cockroaches, ants, fleas, bed bugs, flies, wasps, beetles and stored product insects (SPIs). Apply in accordance with label instructions and COSHH risk assessments.

### 2.1 — Product Overview

Product	Active Ingredient	Form	Target Pest(s)
Ficam W	Bendiocarb	Wettable powder (dilute to 1%)	Cockroaches, ants, beetles, silverfish, woodlice
Ficam D	Bendiocarb	Ready-to-use dust	Cockroaches, ants, crawling insects in voids
Demand CS	Lambda-cyhalothrin	Liquid concentrate (dilute for use)	Ants, cockroaches, spiders, flies, wasps, fleas

Product	Active Ingredient	Form	Target Pest(s)
Cimetrol Super	Alpha-cypermethrin + Permethrin + Tetramethrin + Pyriproxyfen (IGR)	Liquid concentrate	Cockroaches, ants, fleas, bed bugs, flies
Alphamost Plus Z-9	Alpha-cypermethrin	Liquid concentrate	Crawling and flying insects — general surface spray
Dethlac Insect Lacquer	Deltamethrin	Ready-to-use lacquer	Crawling insects — residual surface treatment
Maxforce Ant Gel	Imidacloprid	Bait gel	Ants (including ghost ants)
Victor Gel	Imidacloprid	Bait gel	Cockroaches
Digrain Ant Gel	Permethrin	Ready-to-use gel	Ants
Coopex Smoke Generator	Permethrin + Potassium chlorate	Smoke canister (thermal fogger)	Flying and crawling insects — space fumigation

## 2.2 — Individual Product Reference Sheets

### 1. Ficam W

<b>Product Name</b>	Ficam W
<b>Active Ingredient(s)</b>	Bendiocarb
<b>Concentration</b>	80% wettable powder
<b>Formulation Type</b>	Wettable powder (dilute to 1%)
<b>Target Pest(s)</b>	Cockroaches, ants, beetles, silverfish, woodlice
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed or inhaled. Irritating to eyes and skin.
<b>PPE Required</b>	Nitrile gloves, eye protection, dust mask when measuring
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Bayer current SDS
<b>Regulatory Approval</b>	HSE approved biocidal product

### 2. Ficam D

<b>Product Name</b>	Ficam D
<b>Active Ingredient(s)</b>	Bendiocarb
<b>Concentration</b>	1% dust
<b>Formulation Type</b>	Ready-to-use dust
<b>Target Pest(s)</b>	Cockroaches, ants, crawling insects in voids

<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if inhaled. Wear dust mask.
<b>PPE Required</b>	Nitrile gloves, dust mask (FFP2), eye protection
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Bayer current SDS
<b>Regulatory Approval</b>	HSE approved

### 3. Demand CS

<b>Product Name</b>	Demand CS
<b>Active Ingredient(s)</b>	Lambda-cyhalothrin
<b>Concentration</b>	9.63% microencapsulated
<b>Formulation Type</b>	Liquid concentrate (dilute for use)
<b>Target Pest(s)</b>	Ants, cockroaches, spiders, flies, wasps, fleas
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed. Irritating to skin, eyes, respiratory tract. Very toxic to aquatic life.
<b>PPE Required</b>	Nitrile gloves, eye protection, RPE if spraying indoors
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Syngenta current SDS
<b>Regulatory Approval</b>	HSE approved

### 4. Cimetro Super

<b>Product Name</b>	Cimetro Super
<b>Active Ingredient(s)</b>	Alpha-cypermethrin + Permethrin + Tetramethrin + Pyriproxyfen (IGR)
<b>Concentration</b>	Various
<b>Formulation Type</b>	Liquid concentrate

<b>Target Pest(s)</b>	Cockroaches, ants, fleas, bed bugs, flies
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed. Skin and eye irritant. Toxic to aquatic life.
<b>PPE Required</b>	Nitrile gloves, eye protection
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Callington current SDS
<b>Regulatory Approval</b>	HSE approved

## 5. Alphamost Plus Z-9

<b>Product Name</b>	Alphamost Plus Z-9
<b>Active Ingredient(s)</b>	Alpha-cypermethrin
<b>Concentration</b>	10%
<b>Formulation Type</b>	Liquid concentrate
<b>Target Pest(s)</b>	Crawling and flying insects — general surface spray
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed or inhaled. Irritating to skin.
<b>PPE Required</b>	Nitrile gloves, eye protection
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check manufacturer current SDS
<b>Regulatory Approval</b>	HSE approved

## 6. Dethlac Insect Lacquer

<b>Product Name</b>	Dethlac Insect Lacquer
<b>Active Ingredient(s)</b>	Deltamethrin
<b>Concentration</b>	0.02%

<b>Formulation Type</b>	Ready-to-use lacquer
<b>Target Pest(s)</b>	Crawling insects — residual surface treatment
<b>Use Restriction</b>	Professional / consumer (restricted environments)
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Flammable. Irritating to eyes. Keep away from heat sources.
<b>PPE Required</b>	Gloves, eye protection, ensure ventilation
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Bayer current SDS
<b>Regulatory Approval</b>	HSE approved

## 7. Maxforce Ant Gel

<b>Product Name</b>	Maxforce Ant Gel
<b>Active Ingredient(s)</b>	Imidacloprid
<b>Concentration</b>	0.03%
<b>Formulation Type</b>	Bait gel
<b>Target Pest(s)</b>	Ants (including ghost ants)
<b>Use Restriction</b>	Professional use — bait station/crack & crevice only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed. Very toxic to bees — do not apply to foraging areas.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Bayer current SDS
<b>Regulatory Approval</b>	HSE approved

## 8. Victor Gel

<b>Product Name</b>	Victor Gel
<b>Active Ingredient(s)</b>	Imidacloprid

<b>Concentration</b>	2.15%
<b>Formulation Type</b>	Bait gel
<b>Target Pest(s)</b>	Cockroaches
<b>Use Restriction</b>	Professional use — crack & crevice application
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed. Keep away from bees and pollinators.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check manufacturer current SDS
<b>Regulatory Approval</b>	HSE approved

## 9. Digrain Ant Gel

<b>Product Name</b>	Digrain Ant Gel
<b>Active Ingredient(s)</b>	Permethrin
<b>Concentration</b>	0.506%
<b>Formulation Type</b>	Ready-to-use gel
<b>Target Pest(s)</b>	Ants
<b>Use Restriction</b>	Professional use only
<b>UN Number</b>	N/A
<b>Hazard Classification</b>	Harmful if swallowed. Very toxic to aquatic organisms.
<b>PPE Required</b>	Nitrile gloves
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check manufacturer current SDS
<b>Regulatory Approval</b>	HSE approved

## 10. Coopex Smoke Generator

<b>Product Name</b>	Coopex Smoke Generator
---------------------	------------------------

<b>Active Ingredient(s)</b>	Permethrin + Potassium chlorate
<b>Concentration</b>	13.5%
<b>Formulation Type</b>	Smoke canister (thermal fogger)
<b>Target Pest(s)</b>	Flying and crawling insects — space fumigation
<b>Use Restriction</b>	Professional use only. Evacuate premises before use.
<b>UN Number</b>	UN 0432
<b>Hazard Classification</b>	Flammable solid. Harmful if inhaled. Evacuate and ventilate after use. Fire hazard.
<b>PPE Required</b>	Full PPE — gloves, eye protection, respiratory protection. Do not remain in treated area.
<b>First Aid – Skin</b>	Wash with soap and water. Remove contaminated clothing.
<b>First Aid – Eyes</b>	Rinse with water for 15 minutes. Seek medical advice if irritation persists.
<b>First Aid – Ingestion</b>	Do not induce vomiting. Seek immediate medical attention. Show SDS to physician.
<b>First Aid – Inhalation</b>	Move to fresh air. Seek medical advice if symptoms persist.
<b>Storage</b>	Cool, dry, secure location. Away from food, drink and animal feed.
<b>Disposal</b>	In accordance with local authority guidelines and EA waste regulations.
<b>Emergency Contact</b>	999 / NPIS: 0344 892 0111
<b>SDS Version / Date</b>	Check Elanco current SDS
<b>Regulatory Approval</b>	HSE approved

PPE Item	Standard / Type	Required For
Nitrile Gloves	EN374 chemical resistant	All pesticide handling
Eye Protection / Goggles	EN166 splash-proof goggles	All liquid pesticide dilution and spraying
Face Shield	EN166 full face	Phostoxin, smoke generators, cutting wax blocks
FFP2 Dust Mask	EN149 FFP2 minimum	Ficam D (dust), Phostoxin, wettable powders
SCBA Breathing Apparatus	EN137 self-contained	Phostoxin / aluminium phosphide only
Chemical Resistant Boots	EN345	All ground-level spray operations

PPE Item	Standard / Type	Required For
Coverall / Protective Suit	EN13982 Type 5/6	High-volume spraying, smoke generation, fumigation
Gas Monitor	Phosphine-rated	Phostoxin operations — mandatory
